

IN THE FEED

The Founder Exit™

A done-for-you content engine that removes you from production and puts qualified inbound sales conversations on your calendar.

For B2B SaaS founders with proven products and existing clients.

If you're a B2B tech or SaaS founder with a proven product and existing clients, but content keeps stalling, your pipeline still depends on referrals, and every attempt to fix it somehow still runs through you, then this is what we built The Founder Exit™ for. We build and run your content engine. You approve once a month. Inbound sales conversations start finding you. No contract.

THE PROBLEM — AND WHY EVERY OTHER SOLUTION HASN'T FIXED IT

Most founders know content should work. The problem isn't knowing. It's that every system they've tried still runs through them.

DIY

Bursts then silence. The moment life gets busy, content drops. Every post starts from zero.

Ghostwriter

Voice never right. Every post needs an editing pass. Saved some time. Still in the loop. Nothing actually changed.

AI tools

Generic output. Founder still has to prompt, review, and post it. Keeps the bottleneck, just moves it slightly.

Most founders don't fail at content because they lack ideas, they fail because the system depends on them. The Founder Exit™ removes them from the production loop entirely. Not a writing upgrade. An architecture upgrade.

THE FOUNDER EXIT™ — HOW IT WORKS

We don't create content from scratch, we extract it from what's already in your business. Then we build it, distribute it, and track what moves the pipeline. You step out. The engine keeps going.

1

Position

ICP, offer, and pipeline targets

2

Extract

Mine calls, Looms, decks, voice notes

3

Build

Written by humans, assisted by AI. Sounds like you, not a template.

4

Distribute

LinkedIn + omnichannel, consistently

5

Exit

Founder steps out. Engine runs. Inbound compounds.

WHAT YOU GET

- Content strategy + editorial calendar

WHAT WE DON'T DO

- No paid ad management

- LinkedIn content: written, formatted, published in your voice
- Omnichannel repurposing: blog, email, video, clips
- Profile + channel optimization
- Monthly reporting on what matters: inbound conversations, leads generated, and deals where content played a role

- No cold outbound or DM sequences
- No follower count guarantees

OPTIONAL ADD-ONS

- Video content — +€500/mo
- Team member profiles — +€250/profile/mo
- Company page management — +€250/mo
- LinkedIn Engagement Service — see page 3

WHAT CLIENTS HAVE ACHIEVED

Every result here is tied to inbound sales conversations and revenue. Not likes. Not impressions.

01 · Danoosh Kapadia · Consultant + AI Training Founder

23 inbound sales calls · 4 clients closed · +67% revenue · Q4 vs Q3 2025 · Prospects confirmed referencing content before booking

"The most important outcome was the consulting surge from September to December, traditionally a slow period, where my calendar filled up with qualified inbound inquiries."

02 · Miss Galit · DTC Fashion Founder

14 inbound sales conversations · +45% revenue · Buyers referenced specific LinkedIn posts before closing

"Shifting from posts that perform to a channel that reliably sparks real opportunities."

03 · NetRanks AI · B2B SaaS — AI Visibility + GEO Monitoring

35 demos generated · 75% close rate · ~26 new clients · 45 days from a standing start

"We built a LinkedIn system that generated 35 demos and closed 75% of them in under 45 days, from a standing start."

If content doesn't lead to sales conversations, we consider it broken.

FAQ — THE QUESTIONS THAT MOVE PEOPLE OFF THE FENCE

How long until I see real results?

Pipeline signals, inbound DMs, buyers citing your content, qualified profile views, typically start appearing at months 2–3. Full compounding, where your calendar regularly fills with qualified inbound, comes at months 4–6. Anyone promising a transformed pipeline in 30 days is selling you something else.

How much of my time does this take?

After the initial extraction (one 90-minute session in week one), your involvement is a monthly approval pass of 30–60 minutes. That's it. Everything else runs without you. If you're currently spending more than that on content and getting no pipeline, that's the gap we're closing.

What if it doesn't sound like me?

We build from your real conversations, calls, Looms, voice notes, emails, not guesswork. The first month includes voice calibration. If it doesn't sound like you, we rewrite it. No charge, no argument. This only works if it sounds like you. That's not a nice-to-have. It's the whole point.

Why not just hire someone in-house?

An in-house content hire costs €6,000–€10,000/mo in salary, tools, and management overhead, before you've seen a single result. ITF is operational in 48 hours, replaces a full content team, measures success by sales conversations, not post counts, and has no notice period or management overhead. If it's not working, you cancel.

What's the guarantee?

Execution guarantee: if we don't deliver strategy, content, and publishing in a given month, you don't pay for that month. No contracts. Cancel anytime after the first 90 days. Keep everything we build, the strategy, the calendar, the content, the voice guide. All yours.

Content compounds monthly. Inconsistency resets it. Most founders aren't losing because they don't start, they're losing because they keep restarting.
